- An all-natural feed additive for daily meal applications
- Average load time of 15-21 days
- GRAS-rated and FDA-approved
- Protects against all ticks outlined in the National Animal Health Monitoring System (NAHMS) Equine Study
- Proven to not only eradicate pests but also stabilize equine behavior, increase animal mood and well-being
- Developed for horses and large livestock, but safe for even the smallest of wildlife and pets

### ABOUT TRUST THINK PRODUCTS

Founded in 2016, Trust Think Products operates with the mission of helping people and animals one product at a time. Based on science and safety, many of Trust Think's products have been developed for the founder's personal use as an owner and operator of a 3,000 acre ranch dedicated to the preservation of native species including, but not limited to: equine, turkey, bison, elk and deer. After developing and using Trust Think Products personally since 2010, Trust Think Products is proud to bring essential products to the retail market.
