Ice Dam Blaster® De-icing Sock

Safe for the environment and building materials!

- Safe and easy to handle
- Deicer material will biodegrade and will not harm vegetation
- Safe for the roofing system
- Easy to install - simply place on the roof
- Low maintenance
- No wiring to install or ongoing electricity costs
- Long lasting, slow release
- Contains no salt or chlorides
- Materials are non-corrosive
- (15) 2 lb. pillows per case

As snow melts, it runs through the porous fabric, creating a brine that will melt ice and undercut the dam. The brine continues to flow off the roof under the ice, creating an escape route for snow melt, thus preventing further buildup of ice. Keeps working to about 9 degrees. Colder than that, the snow typically will not be melting anyway.

Reduce or eliminate dangerous ice buildup in pedestrian areas

(15/cs, sold by ea)

Can last for 3 months*
Space 10 -20 feet apart*
Eliminate costly repairs!

Volume discounts available, Ask about 1st Response, our 1/2 hour emergency liquid roof deicer. Ice Dam Attack Crystals are great too!
