

PRODUCT DATA SHEET

OIL-DRI PREMIUM ABSORBENT #48

Issue: Potential safety hazards are present around machines or in storage areas where leaks, drips, sprays or spills are most likely to occur.

Solution: A spill control plan should be developed with absorbent products readily available to control daily leaks and spills around your plant or to use in case of an emergency.

Description: Our premium clay absorbents undergo a superior moisture extraction process that increases absorption power and minimizes dust. Clay granules are used to absorb oils, mixtures of soluble oils, acids, paints, inks, water and other liquids. Proper use of these products can reduce slipping accidents and hazards, prevent flash oil fires and keep floors clean and dry. Do not use with turpentine, vegetable oil, unsaturated organic compounds or hydrofluoric acid.

Disposal: Oil-Dri products must be disposed of in compliance with local, state and federal regulations. Since various fluids absorbed may be of toxic or hazardous in nature, Oil-Dri does not recommend disposal procedures.

ITEM#	DESCRIPTION	BAGS/PALLET	BAG SIZE	GA WEIGHT	MS WEIGHT	UPC
#48	40 Quart Poly Bag	50	24" x 17" x 5.5"	42 lb.	46 lb.	041788050405

Unused material is suitable for disposal in sanitary landfill. Disposal procedures for used material are based on nature of fluid absorbed. Please comply with all local, state and federal environmental regulations when disposing of this product.

Oil-Dri is a leader in developing, manufacturing and marketing sorbent products and has been making work environments cleaner and safer for nearly 70 years. With such a rich history, the Oil-Dri brand is trusted and recognized coast-to-coast. Our offerings include top quality granular absorbents as well as a complete line of synthetic absorbents such as polypropylene pads, socks, rolls, pillows, booms and emergency response spill kits. The versatility of our product line allows us to provide sorbent solutions for all of your maintenance and safety needs.
